# Infobel Pro

THE BEST TOOL TO DEVELOP SERVICES  
WITH ADDED VALUE

## OUR ADDED VALUE

Use businesses data and individuals data worldwide in real time

- Professionals in a speedy, flexible and automated manner (XML) in an environment free of advertising.
- This platform allows companies to develop value-added services requiring the search and verification of individual and companies' details.

## Our solution

Infobel Pro a solution that allows you to carry out extensive searches based on the following criteria:

- Firstname
- Lastname
- Telephone number (or similar telephone number)
- Fax number (or similar fax number)
- Town
- Postcode (or postcode ranges)
- Activity
- Address
- Filter for professionals
- Filter for consumers
- Search in the vicinity (e.g. subscribers between 4 and 19 rue de la Loi)
- Geographical details (X, Y)

## Infobel also has other solutions

**Standardisation:** this solution allows you to find the exact wording for a road based on a misspelt address

**Geographical positioning:** this solution allows you to find the geographical coordinates of a given address in Lambert 2 (metric) or WGS 84 (degrees, minutes, seconds)

**Scoring:** this solution allows you to verify a name and address providing the probability of whether a person or company is actually established at the given address

**Local search:** from a given address you can find all the companies, sectors of activity or individuals within a given area or near to a given place  
E.g.: all caterers within 1km of 16 rue de la Loi  
E.g.: all people called Dupont living within 2km of the Carrefour supermarket in Waterloo, etc ...
